General Remarks

WE are the largest growers of Fruit Trees and Roses in the State, and have the organisation to give our customers the best possible goods and service. Our Nurseries at Kuraby, on the South Coast Line, are open to inspection at any time.

HOW TO ORDER.—Every Order should have the Name and Address of the sender in full and plainly written. Also clear instructions should be given as to the route goods are to be sent, and whether by rail, steamer or post. This information will expedite transit and save annoying delays.

TERMS AND DISCOUNT.—Unknown customers should send remittance with order, or supply a satisfactory reference. Attention to this matter will prevent disappointment and loss of time in correspondence. Our Credit Terms for regular customers are thirty days (except for special parcels, when we draw from date of invoice), or Discount at the rate of $2\frac{1}{2}$ per cent. if payment is made within one month from date of invoice. Interest will be charged on all overdue accounts. Special quotations subject to agreement. Remittances may be made by bank draft, cheque or post office order. For small amounts we will accept postal notes or stamps. Exchange must be added to country cheques, 6d. for Queensland; 1/ for other States.

SMALL ORDERS.—These should always be accompanied by a remittance, as the extra postage incurred in sending accounts and acknowledging small amounts is a serious and unnecessary charge, and is not provided for in our charges.

PACKING.—All orders are packed under special supervision, in the best possible manner, in bales or cases, according to the size of the order and the distance of shipment. We shall, at all times, see that goods are well and securely packed but after despatching such goods, signed for "In Good Order," our responsibility for any loss, damage, or miscarriage ceases. All sacks, bags, and cases will be charged at the lowest rates.

DESPATCH.—We deliver goods free at the railway station carriers' offices in the city, and the river wharves. Our Nursery is situated right beside the Kuraby Railway Station, thus enabling us to despatch large orders with the minimum amount of handling. When goods are to be sent to prepaid railway stations, freight must be added to remittance.

NOTE CAREFULLY.—We wish our customers to know that it is our aim to please all who deal with us, and if any mistakes occur, they are wholly unintentional, and will be rectified as soon as we are notified of them. However, it must be understood that in this respect, we accept no responsibility.

This Booklet contains the names of varieties that we can recommend with confidence, and no effort is spared to keep all stock true to name. We shall be happy to give any information to intending purchasers, and advice as to the kind of trees most suitable for the soil in which it is intended to plant them.

Introduction

We have much pleasure in presenting our 1924 Catalogue of Roses and Fruit Trees, etc., and take the opportunity of thanking our customers for their confidence and very liberal support last year. We desire to draw attention to the addition of lists of Ornamental Shrubs, Shade Trees, Climbing Plants, and Carnations to this Catalogue.

Our Nursery Stock has never been in better condition, and we assure our customers that no pains will be spared in our endeavour to give complete satisfaction.

Cultural Notes

How to Plant Roses

The best time to plant roses is from May to August. A soil that has been well drained or trenched, and consisting of either a heavy loam, shaly rock (intermingled with clay), or a clayey soil will be found most serviceable.

Roses are very fond of lime, and naturally are gross feeders. Great care should be taken to avoid deep planting. The trees should not be planted too deeply; the union, that is, where the tree is budded should not be buried below the soil more than one inch. In fact, if the union is left level with the ground it would be found quite satisfactory. This advice is most important, especially in regard to a heavy soil. Each rootlet should be carefully laid out without any overlapping and covered carefully to the depth of two inches with fine soil. This soil should be pressed firmly over the rootlets, and the tree given a good soaking of water, say one or two gallons. When the water has soaked through, fill up the hole to the required depth.

Arrival of Package

How to Treat Young Plants

When the package containing the trees arrives, it should be unpacked carefully out of the wind and hot sun. The plants should be taken from the bundle, and the roots and tops sprinkled with water. They may then be covered with a sack until planted. If the package be delayed on the rail, or in the post, for more than a week, it is possible that the plants may have become shrivelled. If this should be the case, the plants should be buried at once in a trench about six inches deep, and covered entirely with earth. Give them a good soaking of water and allow them to remain under the earth for three or four days, they will then be recharged with sap, and become quite green and plump and be ready to plant in their permanent quarters. Our roses are so thoroughly well packed that, under ordinary circumstances, they will not be harmed even if delayed for a reasonable time.

General Rose List

*Ready for delivery from
end of April until August*

Price, 1/3 each—12/6 dozen

Except where otherwise stated

Postage Extra.

The List of Roses presented in this Booklet is the outcome of many years experience in producing suitable varieties for the Queensland climate. Some varieties which have appeared in our previous lists have not proved suitable and have, therefore, been omitted. The present list places before our patrons the very latest and most satisfactory selection of roses. Orders can be given with the assurance that every tree is reliable and true to name, and that better stocks cannot be procured from any other source.

Cream and Yellow Roses

ALEXANDER HILL GRAY—Its growth is robustly vigorous, erect, and very floriferous, every shoot being crowned with a flower bud, which develops into a bloom of very large size, with high pointed centre. Its deep lemon yellow colour intensifies as the blooms develop. Strongly scented. An exhibition bloom of the first rank.

ALICE LINDSELL—Colour creamy white with pinkish centre; petals round and very firm. Flowers are large and of perfect shape; habit vigorous.

ALLIANCE FRANCO-RUSSE—Colour bright yellow, shaded to a salmon tint in the centre, bright and striking; a strong upright stalk and a long bud. It is a free and continual bloomer, and is stout, vigorous and hardy.

DUCHESS OF WELLINGTON—A recent introduction of the "Killarney" type. In the young stage it is an intense saffron yellow, stained with rich crimson, which, as the flower develops, becomes deep coppery saffron yellow; growth vigorous.

ELI HARTMANN—The colour is a beautiful old golden yellow; blooms are large, full and of excellent form. A very fine rose.

GEO. SCHWARTZ—A bright deep canary yellow, very deep and rich in colour. Blooms are large and full; a very handsome rose.

GEORGEIOUS—The flowers are large, full and exquisitely formed, produced in endless profusion on stiff erect stems. Colour orange yellow, heavily veined with reddish copper.

GRACE MOLYNEAUX—Colour creamy apricot, with flesh colour in the centre; the outer petals when developed are delicate creamy white inside with pink sheen on reverse; delightfully scented.

HUGO ROLLER—Colour is rich lemon-yellow, the petals being edged and suffused with crimson; flowers of medium size, of good shape, and very freely produced; highly recommended.

IONA HERDMAN—A pure clear orange flame colour. Sweetly scented, very free flowering, and of beautiful shape and form.

JANET—Free flowering and very sweetly scented; colour a delicate egg yolk or golden ochre.

KAISERIN AUGUSTA VICTORIA—One of the most beautiful of all roses. A vigorous grower and very free flowering; producing flowers on long stems. Colour is white with tinge of yellow in centre. Should be found in every collection.

KOOTENAY—The blooms, which are produced in great profusion, are a beautiful primrose colour. More vigorous in growth than K.A. Victoria and equally free flowering.

LADY PLYMOUTH—A most distinct and meritorious rose. Its pearly, delicate, but deep ivory cream petals are very faintly flushed, giving it a most piquant finish. Blooms are large, full and of spiral form.

Cream and Yellow Roses—Continued

LADY HILLINGDON—Colour a deep apricot yellow, shaded fawn; buds long and pointed; very free flowering. One of the best yellow roses for garden and decorative purposes.

LILLIAN MOORE—Colour deep pure Indian yellow, with slightly deeper centre. The flowers are large and very full, of perfect Camellia shape. Growth vigorous, branching and very floriferous. A magnificent rose for every purpose.

LE PROGRESS—The buds are golden yellow changing to Nankeen and pale yellow as the flowers expand; very large, full and cupped, opening well.

MABEL DREW—A deep cream colour, which passes to intense canary yellow in centre as the bloom develops. It has a deliciously refreshing perfume, and sturdy vigorous growth.

MARGARET D. HAMILL—Produces large globular blooms in great profusion on vigorous erect shoots; colour delicate solid straw flushed on the back of petals a delicate carmine. A brilliant rose for all purposes.

MARIE-ADELAIDE GRAND DUCHESS OF LUXEMBOURG—Flowers of marvellously deep orange yellow colouring, large, of perfect form, delicately perfumed; fine long bud, borne on erect stems; growth vigorous, free flowering.

MARIE VAN HOUTTE—Canary yellow, deeper in centre, the border of petals tipped with bright rose, free and continuous bloomer, very fragrant.

MADAME C. SOUPERT—Buds deep yellow, shaded peach carmine, flowers large, very full, of the most perfect form, brilliant yellow suffused pink. A grand rose in every particular.

MELODY—A most charming and beautiful rose of marvellous floriferousness and delightful colour. Colour is intense, pure deep saffron yellow with primrose edges; blooms are carried on erect stems, are strongly perfumed and of good size.

MISS ALICE de ROTHSCHILD—Flowers very large, full, and of perfect form, with high pointed centres. Colour, rich deep citron yellow, which intensifies as the flower expands. Fragrant, free and continuous in bloom.

MRS. DUDLEY CROSS—Pale chamois yellow, beautifully illuminated in Autumn with rainbow tints of rose and crimson. Young foliage beautifully tinted with red.

MRS. CHARLES LAMPLOUGH—Colour rich orange yellow, shading to deep chrome yellow; blooms large, of good form and carried erect; good bedding variety.

MEDEA—A very large globular flower, very full and well formed; colour, lemon yellow, with canary centre; a vigorous grower and free bloomer.

MARCHIONESS OF ORMONDE—Growth vigorous and branching; flowers of great size, very full and of fine form, with high pointed centre; colour, clear wheat straw, centre deep honey yellow.

MISS H. R. DARLINGTON—Creamy yellow; flowers large, opening perfectly with large petals; superb show variety.

MRS. MacKELLAR—Colour, solid deep citron or delicate pure canary, which becomes pearly primrose white, as the blooms expand. A charming exhibition or decorative bloom.

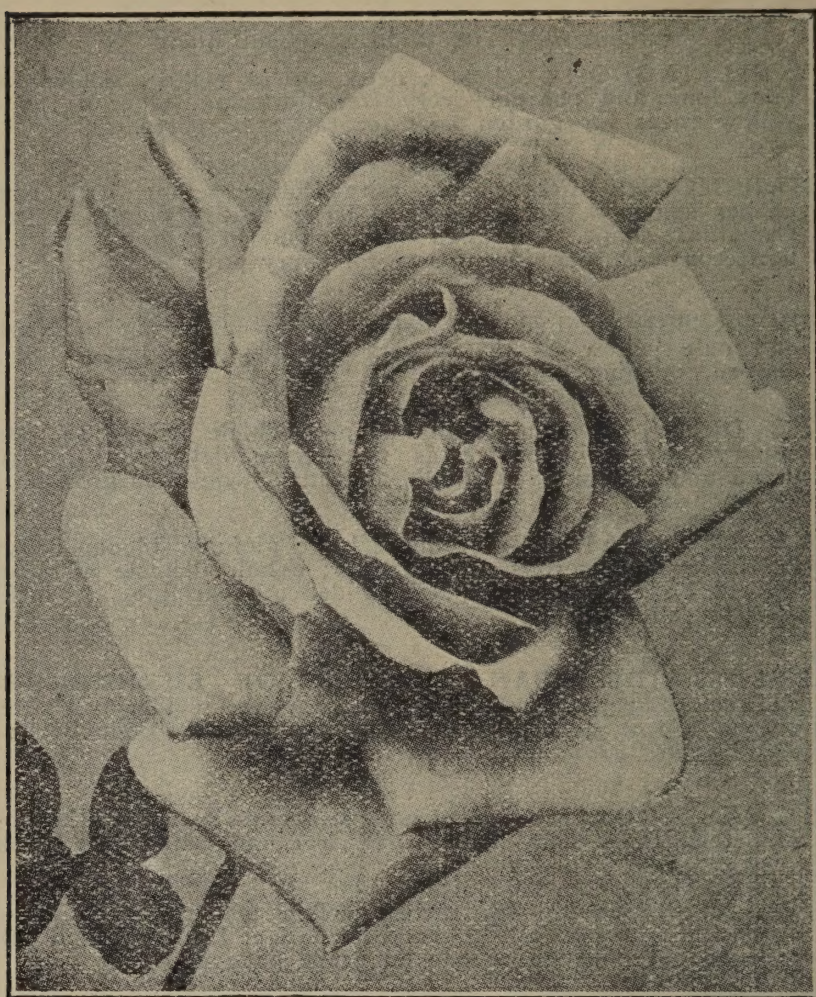

MRS. MONA HUNTING—Blooms medium size and full; colour, deep chamois yellow, with silver centre.

PERLE des JARDINES—A magnificent rose of a beautiful canary yellow colour. The blooms are very large and full. One of the finest yellow roses in cultivation. One we highly recommend.

PERLE von GODESBERG—A golden yellow sport from Kaiserin A. Victoria; a very beautiful rose; a vigorous grower and very free bloomer producing flowers on long stems. Large blooms.

RAYON D'Or—Yellow cadmium as the bloom begins to open, toning to sunflower yellow when fully expanded; large full and of fine globular form.

SOUVENIR de PIERRE NOTTING—Fine apricot yellow, washed with golden yellow and shaded with orange. Blooms large and full, opening well. A Gold Medal Rose.

Sunburst

SUNBURST—Orange yellow, with deeper centre, sometimes varying to cream; fine, long pointed buds, carried on stiff stems. A magnificent variety for cutting.

SUNSET—Deep bright apricot colour, beautiful in bud and producing an abundance of large, well-shaped flowers.

T. F. CROZIER—Colour, deep canary yellow. Flowers large and globular, with high centres. A good exhibition and garden variety.

YELLOW DRUSCHKI—A beautiful clear primrose yellow, sometimes creamy yellow. A magnificent rose of the largest size and most perfect form. This rose has more substance, and the blooms last much longer than the well-known White F. K. Druschki. It is the best all through light yellow rose in existence.

Crimson, Scarlet and Maroon

ALEX. EMSLIE—Colour, ruby on deep delicate velvety crimson. Delicious pure otto-de-rose perfume. Growth very free and branching; very floriferous.—Novelty, 2/6 each.

ARCH. MARIE IMMACULATA—General brick red, shaded salmon and vermilion; blooms large, of good form and very full; fragrant and very good in all stages.

BALDWIN—The colour is unique; a very soft intense carmine crimson, with deeper shades in depth of the petals; the profusion of blooms is truly marvellous, every shoot producing a flower. It is a grand acquisition to our red roses.

BLACK PRINCE—Colour, dark crimson. Blooms are cupped, large, full and very finely shaped.

BENEDICTE SEQUIN—Reddish apricot buds shaded with carmine; large semi-double blooms; colour, Roman ochre, shaded coppery orange.—Novelty, 2/6 each.

CHRISTINE DE NOUE—Colour, deep rosy crimson; centre salmon rose, variable; blooms large, full and well formed. Awarded two first-class certificates.

Hadley

HADLEY—A new American rose of great merit, which has proved one of the finest red roses in cultivation; free branching habit, always in bloom; flowers full, perfectly formed, of a brilliant glowing scarlet. An excellent garden and exhibition rose.

CHATEAU DE CLOS VOUGEOT—Colour, velvety scarlet, shaded with fiery red, changing to dark velvety crimson as the flowers expand. Has handsome foliage and is an admirable garden rose.

CREMOIS SUPERIOR—Colour, crimson; blooms are semi-double and produced in profusion. It is a magnificent decorative rose.

EARL OF DUFFERIN—Rich dark velvety crimson, shaded with maroon; of good size and excellent shape; very fragrant.

EDWARD MAWLEY—Colour, deep rich velvety crimson. The form of the blooms is faultless, being very large and quite full, with petals beautifully arranged. Delicious perfume.

ETOILE DE FRANCE—Flowers very large, and possessing petals of very good substance; of magnificent cupped form, very full and expanding freely; superb colour; velvety reddish crimson, the centre petals being a vivid reddish cerise; the flowers are very fragrant.

EARL HAIG—Deep reddish crimson; flowers of immense size and substance; perfectly formed. An excellent bedding variety being very continuous in bloom.

FRANCOIS DUBREUIL—A very fine tea rose; colour velvety purplish crimson reflexed with cerise and amaranth. Buds of great beauty. It is very free flowering.

GENERAL MacARTHUR—A very fine colour; bright scarlet. The blooms are of good form and are borne singly on stout stems. Sweetly scented and very free flowering. A magnificent rose, which we recommend.

GENERAL SUPERIOR JANSEN—A recent introduction with brilliant colouring; a glowing deep crimson. Large, full, deep and well-formed flowers, are carried on stiff stems, freely and abundantly produced. A most striking and effective rose.

GENERAL GALLIENI—Colour, deep red, centre shaded yellow; distinct and very free flowering.

GEO. DICKSON—Very strong vigorous upright growth, flowers of the largest size, perfect in shape and unique in colour, which is velvety black crimson; the back of the petals are heavily veined with pure crimson maroon. Delightfully scented.

Crimson, Scarlet and Maroon—Continued

- GEORGE C. WAUD**—The flowers are large, full, perfectly formed, with high pointed centres, possessing a shade of colour hitherto unknown among roses, which is a glowing orange vermillion, which does not fade.
- GRUSS AN TEPLITZ**—Bright cinnabar scarlet, shaded with fiery red; a very effective decorative rose of vigorous growth.
- HOOSIER BEAUTY**—Glowing crimson, with darker veining and shading. Exceedingly free flowering, a vigorous grower, sweetly scented; holds its colour well in hot weather.
- H. V. MACHIN**—Colour, black-grained scarlet-crimson; blooms carried on rigid stalk; sturdy and erect growth.
- IRISH FIREFLAME**—Buds deep maddery orange, splashed crimson; large single flowers of gorgeous colouring.
- JOHN DAVIDSON**—Colour deep rich crimson; flowers full and perfectly formed; very perpetual blooming. A good show and bedding variety.
- K. OF K.**—A rose named as a tribute of respect and admiration for a genuine British Soldier. Colour, intense scarlet; growth vigorous and branching. The blooms, which are produced in great profusion, are deliciously perfumed.
- LADY ROBERTS**—Rich reddish apricot, edges of petals shaded pale orange; a good buttonhole rose.
- LAURENT CALE**—Growth vigorous, erect and branching; buds long, flowers very large, of perfect form. Colour, brilliant velvety carmine. A most valuable rose either for exhibition or decorative purposes.
- LIBERTY**—Brilliant crimson, fine stiff petals; large and beautiful; a fine, constant bloomer.
- LADY ANDERSON**—Deep coral pink, suffused with flesh and yellow shadings. Blooms of large size, deep globular form, with high pointed centre.—Novelty, 2/6 each.
- LYON ROSE**—Coral red or salmon rose, suffused yellow; blooms large, perfectly formed and fragrant.
- MADAM EDWARD HERRIOT**—Vivid terra-cotta passing to clear strawberry rose colour; beautiful in bud, distinct and good; glossy green foliage. A very good rose.
- MISS RITA PETERSEN**—A deep rose colour, shading from cerise to dark red; inner petals coppery, outer petals well curved, shading from lemon cream at base to rich claret towards edge. A vigorous grower and profuse bloomer. A first-class garden or decorative rose.
- MIDNIGHT SUN**—Deep glowing crimson, flushed with velvety black; flowers semi-double, produced singly on long stems; growth vigorous and compact.
- NEDERLAND**—A magnificent red rose; blooms are of magnificent form, and are very full; growth vigorous. A very good exhibition rose.
- PAPA GONTIER**—Rosy crimson, lighter as flower expands; free flowering, especially good in autumn; should not be hard pruned.
- PENELOPE**—The lower half of the flower is a dark crimson, while the centre is white with a deep red flush on the lower side of centre petals. One of the most distinct and beautiful roses in the Autumn.
- PRINCESS DE SAGAN**—Velvety crimson, with purplish shade; very loose when expanded, but attractive.
- RADIANCE**—Colour brilliant carmine, shaded salmon; sweetly scented, and a strong grower.
- RED LETTER DAY**—A splendid grower, always in bloom; long stems, and light semi-double blooms of the richest velvety crimson scarlet.
- REINE MARGUERITE DE ITALIE**—Glossy red carmine, centre lightened with red vermillion; exquisite perfume, and very free flowering.
- RHEA REID**—This splendid variety produces long shoots, which are crowned with flowers of perfect form and substance; has a splendid constitution, which resists mildew. It is said to be a great advance upon both Liberty and Richmond. Colour rich, crimson red.

Crimson, Scarlet and Maroon—Continued

RELIANCE—Colour red; a beautiful rose, sweetly scented, and a very strong grower.

RED RADIANCE—A rose similar in all respects to Radiance except in colour, which is bright red. It is very sweetly scented, and is a strong grower.—Novelty, 2/6 each.

SOUVENIR DE THERESA LEVET—Colour deep crimson, shaded maroon; blooms are fairly large, and of splendid form. One of the best.

STAR OF QUEENSLAND—A cross between Etoile de France and the Earl of Dufferin; colour, dark velvety crimson; growth is strong and sturdy; free flowering and sweetly scented. One of the best roses yet introduced.

SUNRISE—Outer petals reddish carmine, pale salmon within; open blooms are a very pleasing colour.

W. C. GAUNT—Colour velvety crimson, shaded vermilion and scarlet; very free flowering on erect stems, and a vigorous grower. A magnificent garden rose.

WILLOWMERE—Buds carmine coral red; open flowers shrimp pink, shaded yellow in centre. Blooms large, full, and cup-shaped.

WARRIOR—Buds blood red, long and handsome; opening flowers vivid scarlet, with handsome broad petals.

Coppery and Combination Shades

AMY G. HAMMOND—A blend of ivory, amber, and apricot; clear amber colour is most pronounced, and develops to bright apricot during the best part of the flowering season.

BETTY—A magnificent rose; blooms large, and of glorious form; colour coppery rose, shaded yellow; a constant bloomer, of very vigorous growth.

CARINE—Colour variable, orange carmine to buff and creamy salmon. A distinct and beautiful garden rose.

CLARICE GOODACRE—A rose of exquisite form and unique colour, with most distinct perfume. Its highly polished blooms of biscuit chrome and ivory white are of faultless shape. A first-class exhibition rose.

COUNTESS DE CASSAYNE—Flowers of varying colours; red coppery pink, shaded clear rose; occasionally comes quite yellow; very large, of fine form, and sweetly perfumed.

DR. GRILL—Coppery yellow, shading to rose. A vigorous and free-flowering variety.

DR. J. DREW—Salmon yellow, richly suffused with pink; sweetly scented.

FRANCISKA KRUGER—Coppery yellow, with shaded rosy petals; blooms are large, full, and high centred; very free flowering, and a splendid grower.

JULIET—Outside of petals old gold, interior rich rosy red, base deep yellow; an attractive variety, of novel colouring.

LADY GREENALL—Colour intense saffron orange, heavily zoned and overspread on deep creamy white; the reflex of each petal is faintly suffused with coppery shell pink.

MADAM VERMOREL—Colour coppery yellow, flushed with carmine and orange; very large and of good shape; flowers borne on stout stems.

MRS. FORDE—Rose pink, flushed with deep carmine; chrome yellow at base; blooms large and of perfect spiral form and finish; growth vigorous.

MRS. JAMES CRAIG—The flowers, which are most abundantly and freely produced, are large, full, and of exquisite form, opening freely. The colour is salmon rose, flushed pale yellow at the base of the petals, outer petals passing to pale rosy pink. Habit is vigorous, erect, and very branching.

MADAM J. BOUCHE—Vigorous and free flowering, colour salmon white, with pink-shaded centre; blooms large and full.

Duchess of Westminster

- DUCHESS OF WESTMINSTER**—A peerless rose, with beautifully smooth and massive petals. The blooms are very large, full, and perfectly formed, with high-pointed centre. The colour is a dainty clear rose-madder; growth is vigorous, erect, and of very free flowering habit.
- MADAM DE WATTEVILLE**—Colour salmon white, each petal being bordered with bright rose like a tulip. Large and full, buds long. A very fine rose.
- MADAM JULES GRAVEREAUX**—Buff white, shaded peach and yellow; blooms large and of very good shape.
- NELLIE PARKER**—Creamy white, shaded copper, flushed with blush at tip of petals; perfectly formed flowers.—Novelty, 2/6 each.
- PADRE**—Strong, upright growth, long shoots, producing flowers with fine long petals of coppery scarlet colouring, flushed with yellow at the base.
- PRINCE CHARMING**—Deep reddish copper, with old gold base; flowers very freely. A beautiful garden variety.
- SOUVENIR DE CATHERIN GUILLOT**—Orange red, tinted carmine on yellow ground; splendid buds.
- SOUVENIR DE STELLA GRAY**—Deep orange, with veins of yellow, apricot salmon, and carmine; a beautiful variety, and a good rose for buds.

Pink Roses

- ANTOINE REVOIRE**—Pale rosy flesh, shaded and edged bright carmine, base of petals yellow; large, and shaped like a Camellia.
- ANNA OLIVER**—Rosy flesh and buff; blooms are large, full, and very beautiful in bud.
- BELLE SIEBRECHT**—Bright rosy pink, large, full, and beautifully formed; sweetly perfumed, and exceedingly floriferous.

Pink Roses—Continued

- BEATRICE**—Suitable for exhibition purposes; colour deep pink when opening; fully developed, the outer petals are pale flesh and the centre bright pink; growth very vigorous.
- BESSIE BROWN**—Creamy white, shaded pink; flowers large and of good substance.
- BEAUTY OF STAPLEFORD**—Colour deep rose with carmine centre; blooms full and well formed. A splendid garden rose.
- CAPTAIN CHRISTY**—A delicate flesh-coloured rose, deepest in centre; blooms large and full.
- CAROLINE TESTOUT**—One of the best pink roses; colour bright rose; the blooms, which are sweetly perfumed, are large and double. One of the best roses for all purposes.
- CECIL BRUNNER**—A beautiful blush, with salmon pink centre. A very sweet rose, of perfect form.
- COUNTESS OF GOSFORD**—The colour is salmon pink, shaded rose, the base of the petals suffused with salmon yellow; the blooms are full, large, and of perfect form. One of the best.
- COLUMBIA**—A delightful shade of rose pink, deepening as the flower ages. This is a strong variety, exceptionally free flowering, and produces splendidly shaped flowers on rigid stems.—Novelty, 2/6 each.
- COUNTESS OF ILCHESTER**—A magnificent rose, of carmine pink colour. The blooms are very large, and have petals of immense size and fine finish; growth erect, vigorous, and very free.
- DEAN HOLE**—The blooms are very large, of great substance, and have fine centres of elongated form; petals very large and smooth; colour silvery carmine, shaded salmon; growth is vigorous and of free branching habit, flowering freely and continuously throughout the entire season.
- DUCHESS OF SUTHERLAND**—Delicate warm rose pink, with lemon shading on a white base; the blooms, which are large, full, and conical, are freely produced and carried on rigid stems.
- EDGAR M. BURNETT**—Very large, full flowers, of fine shape and form, with large flesh petals, tinted rose. A great improvement on La France, and undoubtedly the most sweetly scented rose in existence. A grand exhibition flower.
- ETHEL SOMERSET**—Shrimp pink, edge of petals deep flesh coral pink, flowers large, full, and perfectly formed, with high-pointed centre and very deep shell-shaped petals.
- GLADYS HOLLAND**—Buff, shaded orange yellow; outside of petals soft rose; blooms very fragrant.
- GWEN NASH**—Strong free-flowering bush rose, very healthy and vigorous; large flowers of lovely shade of cyclamen pink.
- HECTOR MCKENZIE**—Dark pink, changing to silvery carmine; large, full, and free; vigorous upright growth. Highly recommended.
- HOMERE**—Rose salmon centre, crumpled edge, often bordered deeper rose. Splendid garden rose.
- JOHNKHEER J. L. MOCK**—Growth vigorous and free; the blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of large size, perfect formation, and highly perfumed; colour carmine, changing to Imperial pink.
- KILLARNEY**—Pale pink, long pointed flowers of beautiful shape; half full.
- LA FRANCE**—Bright lilac rose, with silvery white centre; blooms very large, of perfect form and very sweetly perfumed. A fine show bloom.
- LADY ALICE STANLEY**—One of the best roses for garden decoration, producing large full flowers on stiff stems; color, deep coral rose, with pale flesh centre.
- LADY URSULA**—A delightful shade of flesh pink; thoroughly distinct; the flowers are large, full and of great substance and perfect form, with high centre; delicately perfumed.
- LORD TARQUIN**—Colour, pale flesh; very constant bloomer and good grower.

Pink Roses—Continued

- MAMAN COCHET**—A splendid rose which should be included in every collection; colour, light pink shaded with salmon yellow; blooms large and full and ideal for exhibition. The best pink rose grown.
- MARGARET**—A clear and delicate tint of soft pink; buds long and handsome; outer petals of blooms are nicely reflexed; vigorous growth.
- MADAME ABEL CHATENAY**—Rosy carmine, shaded vermilion and tinged with salmon; one of the most beautiful roses in existence; free flowering and vigorous. One of the best roses for cutting, garden and decorative purposes.
- MADAM JULES GROLEZ**—Satiny china rose colour, very bright, full and finely formed; very free blooming and a good grower; one of the best for all purposes.
- MADAM LAMBARD**—Salmon pink, shaded rose. An old variety that is still one of the best.
- MADAM P. EULER**—Vermilion silvery pink; blooms of perfect form and very fragrant.
- MISS C. FORD**—Deep brilliant rose pink shading on back of petals to light rosy pink; flowers large, perfectly formed and very full; free flowering and sweetly perfumed.
- MOLLY BLIGH**—The blooms are large and of ideal shape; a deep maddery rose colour, heavily zoned with orange at base of petals.
- MRS. EDWARD MAWLEY**—Bright carmine pink shaded salmon, flowers very large, full, beautifully formed and of great substance.
- MRS. GEORGE SHAWYER**—Brilliant clear rose; the flowers are very large, well formed, and fairly full; the growth is tall and stiff, and carries magnificent leathery foliage.
- MRS. R. D. M'CLURE**—Very large full flowers, of exquisite form; colour, brilliant glistening salmon pink; large, full and beautifully formed.
- MRS. SEGOND WEBER**—Salmon pink; large, firm petals; very full large flowers, regular in shape and carried on stiff stems.
- QUEEN OF SPAIN**—Colour, pale flesh, darker in centre; flowers full, large and globular.
- QUEEN OF THE BELGIANS**—Rich salmon pink; buds long and of good shape; a useful rose for cut-flower use.
- RAINBOW**—Very large and well formed, semi-double in the way of Papa Gontier; colour, soft rose, striped with carmine; very effective.
- SOUVENIR De La MALMAISON**—Colour, clear flesh with blush edges; blooms very large and sweetly scented.
- SWEET SEVENTEEN**—Colour, soft blush pink, of medium growth, upright and compact. Sweetly scented and ever-blooming.
- WILLIAM SHEAN**—Colour, pure pink with delicate ochre veination; flowers of immense size and substance; free blooming and distinct.
- YVONNE VACHEROT**—Very pale pink, long pointed buds of splendid form, opening to very large flowers. A first-class rose for show or garden purposes.

White Roses

- BOULE De NIEGE**—Purest white; upright growth, sweetly scented. Splendid for cut-flower use.
- BRITISH QUEEN**—Pure white, showing a light flush in bud stage; large, free blooming and sweetly scented.
- EDEL**—White with faint ivory shading towards the base; a fine grower, with uniform stout habit; a fine bedding rose.
- FRAU KARL DRUSHKI**—Snow white, extra fine in bud; a strong growing variety, producing flowers of exceedingly handsome appearance, both on the plant and when cut.

White Roses—Continued

- HELENE WATTINE**—Growth very robust; flowers large, full and of beautiful form; colour, white, with lemon centre; a superb exhibition variety.
- LEON XIII**—White tinted pale lemon; free bloomer and good for cut flowers.
- MADAM B. EMYARD**—Pure white, sometimes yellow in the centre; very free blooming; excellent for cutting.
- MILDRED GRANT**—Ivory white, tinted peach, unusually large and massive petals, open flowers of enormous size.
- MOLLY SHARMAN CRAWFORD**—Eau-de-nil white, becoming dazzling white as flowers expand; valuable alike for exhibition or garden.
- MRS. ANDREW CARNEGIE**—Large well-formed flowers with high pointed centres. Colour, pure white, occasionally tinted with lemon.
- MRS. DAVID MCKEE**—Creamy white flowers, large, of good form, very free flowering; one of the best for exhibition or garden.
- MRS. FOLEY HOBBS**—One of the very best; colour, a delicate ivory white, faintly tinged with clear pink on the edges of petals. For exhibition purposes this rose stands without a rival; tea perfumed.
- MRS. HERBERT STEVENS**—Probably the best white rose for general purposes; very free flowering, perfect form, and a beautiful bud; unexcelled for exhibition and garden purposes.
- MRS. H. BROCKLEBANK**—Creamy white, centre buff; a good garden and exhibition rose; very fragrant.
- NIPHETOS**—Pure white; beautiful pointed buds; very free flowering.
- NITA WELDON**—Blossoms of large size of a unique ivory white colour, edged with faintest blush; vigorous growth and perfect habit.
- THE BRIDE**—Pure white, sometimes delicately tinged with rose; very floriferous and beautiful in the buds, and a most useful rose for cutting purposes.
- W. R. SMITH**—Creamy white flushed and suffused with bright rose pink; flowers are large and full; a fine rose of "Maman Cochet" type and one of the best.
- WHITE BOUGERE**—A sport from the well-known Tea Rose Bougere; pure ivory white flowers; very fine and effective.
- WHITE LA FRANCE**—Blossoms large, full and well formed, similar to La France; a very good white rose.
- WHITE LORD TARQUIN**—A pure white sport from Lord Tarquin; a constant bloomer, and a good lasting flower.

Polyantha Roses

The Polyantha is a dwarf variety of Rose, carrying clusters of small blossoms.

The growth is never much more than 18 inches, but the flowering is continuous and very prolific. For bedding purposes they are unexcelled, each truss of blossoms being a bundle of beauty.

The following is a list of the very best varieties:—

- A. M. De MONTREVAL**—Pure white, very full, beautifully imbricated; produced in large bunches.
- A. M. PAVILL**—One of the best Polyanthas; colour, pure white; blooms produced in large clusters; free flowering.
- BORDERER**—Colour difficult to describe but shades of pink, copper and amber go together to make a very charming and distinct rose; wonderfully free flowering and an excellent bedder.
- CECILE BRUNNER**—Colour, rose, yellowish in centre; very sweet and of very free growth. A gem for buttonhole bouquets.
- ELLEN POULSEN**—Dark brilliant pink; large, full and sweet scented. Vigorous bushy habit and most floriferous.

Polyantha Roses—Continued

- ETOILE De LUSSIA****NT**—Buds bright pink, opening to light pink blooms, which are borne in sprays.
- ETOILE D'Or**—Colour citron yellow in centre, snading to pale chrome yellow; medium size; very fine.
- ERNA TESHENDORFF**—Splendid shining crimson. The best among the red Polyanthas.
- EUGENIE LAMESCH**—Brilliant ochre yellow, turning to pale yellow tinted rose, sweetly scented dwarf and bushy.
- FAIRY PET**—Colour, pure white, very similar to White Pet; blooms are produced in white clusters. This is one of the very best Polyanthas and is very prolific. It should be found in every collection.
- GEO. ELGAR**—Coppery golden yellow, changing to clear yellow when opening; very free flowering.
- JENNY SOUPERT**—Carnationed white; small flowers of regular, perfect form, produced in large clusters.
- LEONIE LAMESCH**—Bright coppery red, shaded deep red and yellow; very good.
- LOTTIE FOSTER**—Bright pink; small blooms produced in clusters; free flowering and very dainty.
- MADAM N. LAVAVASSEUR**—Flowers purplish crimson; resembling Crimson Rambler in form.
- ORLEANS**—Brilliant geranium red, suffused rose, with white centre; making a charming combination; very fine. One of the best dwarf Polyanthas ever raised.
- OUR ALLIES**—Colour, shell pink; free flowering and very beautiful.
- PERLE D'Or**—Nankeen yellow with orange centres, single flower, forming large trusses; free flowering.
- YVONNE RABIER**—White flowers of good size, borne in fine clusters. Habit perfect; fine for massing.
- RED PET**—A continuous bloomer; colour, brightest dark crimson.
- PERLE DES ROUGES**—Deep velvety crimson, small and double; produced in clusters; profuse bloomer.
- PAPA HEMERY**—Vivid vermillion red, white centre; single flowers, forming large trusses; free flowering.

Climbing Roses

Yellow Climbers

- CELINE FORESTIER**—Pale yellow, free flowering, splendid foliage; very popular.
- CLIMBING GEORGE SCHWARTZ**—A climbing sport from the beautiful yellow rose, Geo. Schwartz. It is a vigorous grower, and will prove a great acquisition.
- CLIMBING LADY HILLINGDON**—A beautiful golden yellow climbing sport from the well-known favourite of the same name. A strong and free climber.
- CLIMBING SUNBURST**—A strong climber, sported from the well-known parent of the same name; colour cadmium yellow.
- CLOTH OF GOLD**—Sulphur yellow; nice in the bud, foliage dark green; very strong grower.
- DUCHESS D'AUERSTAEDT**—Yellow, with nankeen shade in centre; very beautiful in the bud; a really good rose.
- E. VEYIAT HERMANOS**—A distinct rose, of strong climbing habit; colour apricot and carmine; reflex of petals deep red; sweet scented.
- MADAME JULES GRAVEREAUX**—Deep yellow, centre rosy peach, buds very long and pointed; profuse bloomer; very beautiful and distinct.

MARECHAL NIEL—Rich golden yellow, very large, full, and of excellent form; highly fragrant and free. A grand old favourite.

PERLE DES JARDINS—Deep canary yellow; very large buds, of globular shape; free flowering. One of the best.

WILLIAM ALLAN RICHARDSON—Deep orange yellow; beautiful in the bud; very showy and distinct.

White Climbers

DEVONIENSIS—Creamy white, shading to rose colour; strong grower and free bloomer.

WHITE DOROTHY PERKINS—Colour, pure white; most suitable for covering pergolas or arches; producing 20 to 30 blooms to a cluster. Highly recommended.

FRAU KARL DRUSCHKI—A climbing sport of the well-known dwarf; one of the best climbers; colour pure white.

KAISERIN AUGUSTA VICTORIA—A climbing sport from the dwarf, of vigorous growth, and without doubt the best climber of its colour, which is creamy white.

LA MARQUE—White centre, tinged yellow; free, and of good habit; one of the best climbers introduced. Highly recommended.

NIPHETOS—Pure white, long buds, very free flowering, and of vigorous growth.

WHITE MAMAN COCHET—A strong climbing sport from Maman Cochet; colour flesh, shaded with carmine and yellow.

Red Climbers

AUSTRALIAN BEAUTY—A magnificent climber; colour richest crimson, shaded velvety amaranth, delicately perfumed; very vigorous climber, and constantly in bloom.

BARDON JOB—A single flowering species; colour glowing crimson, with yellow anthers; sweetly scented; produced in clusters.

CLIMBING CHATEAU DE CLOS VOUGET—Flowers velvety scarlet, shaded with fiery red, changing to dark velvety crimson.

CRIMSON RAMBLER—A strong grower and profuse bloomer, borne in clusters, each of which contain 15 to 30 blooms; colour bright crimson.

MONSIEUR DESIR—Velvety crimson, shaded violet; large, full, and well formed; splendid foliage, and sweetly scented.

PAPA GONTIER—A vigorous climbing sport from the popular dwarf, and one of the most welcome additions to our red climbing roses.

REINE MARIE HENRIETTE—Bright rosy red, sometimes crimson; large and of good form; free flowering. One of the best varieties introduced.

Pink Climbers

CAROLINE TESTOUT—Flowers bright rose pink; very free flowering, and a strong grower.

CLIMBING LADY ASHTOWN—Very pale Rose du Barri colour, shaded to yellow at base of petals; vigorous habit.

CLIMBING MAMAN COCHET—A magnificent climbing sport from the well-known favourite; colour flesh, shaded with carmine and salmon yellow.

COUNTESS DE LA BARTHE—A strong grower, and very free flowering; colour pale flesh.

DOROTHY PERKINS—A very sweet and profuse bloomer; colour pink, blooms being produced in clusters; splendid for covering pergola or arch.

LA FRANCE DE 89—Brilliant rosy red, very large, and free flowering; very sweet scented; a good pillar rose.

MA MIE—Large, vigorous, and strong scented; colour rosy carmine; blooms are very full and perfectly formed.

MADAME SEGOND WEBER—Rosy salmon; blooms are of enormous size, and of perfect form; petals large and firm. One of the best of all climbers.

Ornamental Flowering Shrubs

No garden can be said to be complete without trees and shrubs. They add considerably both to the appearance and value of a home, are easily grown, and require little attention. Many have ornamental decorative foliage, and others are useful for cut blooms at various seasons of the year.

These plants have been grown out doors and are well established in pots. When planting allow ample room for growth and expansion. The planting season for most varieties is from April to November but Evergreens can be planted with advantage during the summer months.

The following varieties have been chosen as being the most suited to the Queensland climate:—

Price, 1/6 each, except where otherwise stated.

D.S. signifies Deciduous Shrub.

E.S. signifies Evergreen Shrub.

ABUTILON SAWITZII—A very distinct variety, with green palmate leaves, regularly margined with silvery white. Grows to a height of 4ft. E.S.

ACALYPHA—Popular for lawns, hedges, and odd corners; has pretty variegated foliage, and grows up to 10ft. in height. Three varieties. E.S.

AUCUBA JAPONICA—A pretty shrub, which does best in a shady position. The foliage is a glossy green, and the shrub bears large bright-red berries. Price, 2/6 each.

ARALIA SIEBOLDII—A very hardy, large-leaved shrub, remarkable for the beauty of its foliage; grows to a height of 4ft. E.S.

ARDISIA CRENULATA—An evergreen shrub, which makes a charming pot plant. The plant bears crimson berries, and grows 2ft. in height. E.S.

AZALEA—One of the most gorgeous of our early spring flowering shrubs, a dwarf and compact grower, having flowers from pure white to deep crimson, according to the species. E.S. Price, 2/- each.

BENTHAMIA—A fine hardy, quick-growing shrub, which does well in our climate, and in Winter and early Spring is covered with scarlet fruit similar to the strawberry. E.S.

BRUGMANSIA KNIGHTII—A very handsome flowering shrub, producing very large white pendulous flowers, having an exquisite perfume. E.S.

CAMELLIA—A well-known shrub, with a graceful and compact habit. Bears a profusion of lovely flowers throughout the Autumn and Winter months. Our stock comprises many varieties, ranging in colour from pure white to deep red. E.S. Price, 2/6 each.

CRATAEGUS CRENULATA—A very handsome shrub, growing to a height of 8ft., and bearing red berries. It makes a splendid show in Spring. E.S.

DOMBEYA MASTERSI—A very pretty flowering shrub which grows to a height of 6ft. Bears very large flowers. E.S.

DRACAENA—Beautiful ornamental-leaved plant. Indispensable for landscape gardening, and can be grown in vases for house decoration. E.S.

DURANTA—Very handsome and beautiful free flowering shrubs, continuing in bloom the greater part of Summer and Autumn. E.S. Price, 1/- each.

ESCALLONIA MACRANTHA—A beautiful free-flowering evergreen, grows to a height of 6ft., and bears crimson-red flowers. E.S. Price, 2/- each.

EUONYMUS VERIGATA—A beautiful hardy evergreen, with ornamental foliage, which grows to a height of 6ft. E.S. Price, 2/- each.

- EUPHORBIA**—A most showy and useful plant, with neat brilliant scarlet flowers. Will grow in any dry situation. E.S. Price, 2/- each.
- GARDENIA**—The most popular shrub grown in Australian gardens. During Spring its branches are literally clothed with large pure white flowers of exquisite fragrance. Grows to a height of about 8ft. E.S. Price, 2/- each.
- HABROTHAMNUS ELEGANS** (false Jasmine or Cestrum)—A free flowering shrub like a giant Bouvardia, producing tubular purplish red flowers in large dense drooping panicles. Grows from 4ft. to 10ft. high. E.S. Price, 2/- each.
- HIBISCUS**—This showy shrub thrives remarkably well in Queensland, flowering profusely and almost continuously in the more favoured coastal districts. There are several varieties, the colours of which include Yellow, Crimson, Pink, Lavender, Rose, and Scarlet. E.S.
- HYDRANGEA**—This splendid old favourite does best in shady situations. It grows about 4ft., and is suitable for planting in large pots or tubs for verandah use. We have three species—White, Blue and Pink. D.S.
- JASMINUM** (Jasmine)—There are no more fragrant flowers than those of the Jasmine. *J. Grandiflorum*, with white flowers, is one of the best, and can be trained either as a climber or shrub. *J. Fruticans* has yellow flowers, and grows to a height of 8ft. E.S.
- LAGERSTROEMIA**—A very handsome free flowering evergreen. Grows 8ft. in height, and bears pink flowers. A very good variety. D.A. Price, 2/- each.
- LASIANDRA**—A graceful and distinct shrub, about 7ft. high when fully grown. Bears a profusion of large, showy, rich violet-blue flowers, 3 to 4 inches in diameter. E.S.
- LIGUSTRUM VERIGATA**—A hardy and ornamental evergreen, bearing numerous small white flowers on terminal branches. Makes a good hedge, and also looks well as a single specimen on a lawn. E.S.
- MURRAYA EXOTICA**—A native evergreen. It grows from 4ft. to 8ft. high, and produces white flowers having a similar perfume to orange blossoms. E.S.
- MANDINA DOMESTICA**—The Sacred Bamboo of Japan; has handsome dark green foliage. Grows to 6ft. in height, and is very useful for floral work. E.S.
- OLEANDER**—Very beautiful plants, and are classed amongst the best and hardiest of summer-flowering shrubs. We have them in various shades of colour. E.S.
- PHILADELPHUS**—A hardy ornamental shrub, growing from 4ft. to 6ft. high or more, and producing a profusion of single and double large white sweetly perfumed flowers in early Spring. D.S.
- PLUMBAGO**—One of the hardiest of flowering shrubs. Is very free flowering, continuing in bloom all through the Summer, and stands drought well. Colours White, Blue, and Red. E.S.
- POINSETTIA PULCHERRIMA**—A remarkably showy shrub, each branch being surmounted by large vermilion bracts, which develop in Winter and make a magnificent display. D.S. Price, 2/- each.
- RAPHIOLEPSIS INDICA** (Indian Hawthorn)—A handsome evergreen shrub, growing from 4ft. to 6ft. high. Has foliage like green velvet, and bears a profusion of pink and white flowers in early Summer and Autumn. E.S.
- RUSSELLIA JUNCEA**—A small family of plants with rush-like leaves; rather ornamental, and suitable for outdoor cultivation; scarlet flowers; grows 5ft. high. E.S.
- SPIREA**—A hardy, easily cultivated shrub, and one of the most floriferous and attractive flowering plants in existence; nice foliage and good bloomer. E.S.
- STENOCARPUS**—The scarlet Umbrella Flower tree of Queensland; large handsome foliage and fine flowers; evergreen, and hardy in warm districts. E.T. Price, 2/6 each.
- TECOMA CAPENSIS**—A beautiful shrub, which makes a good hedge. Crimson (Trumpet Flower). E.S.
- TECOMA STANS**—A showy and beautiful shrub, producing clusters of yellow flowers. It attains a height of 15ft., and withstands heat and drought well. E.S.
- TULIP TREE**—One of the most distinct and finest deciduous trees we possess. It has a peculiar cut-like foliage of bright shining green, and large flowers of yellowish red colour. D.T.

Shade Trees

Price, from 1/6 upwards, according to size.

- ACER PSEUDO PLATANUS**—The beautiful Japanese maple; very quick-growing, and most suitable for moist, cool climates. Attains a height of 40ft. D.T.
- ACACIA**—Wattles are delightful trees, and, being the National Emblem of Australia, everyone should grow them. They succeed almost anywhere, and few shrubs require less attention. E.T.
- ARBUTUS UNEDO**—The Irish strawberry tree. A beautiful flowering shrub, producing late in Winter or early in Summer an abundance of flowers resembling lilies of the valley, which are succeeded by scarlet berries. E.T.
- CALODENDRON CAPENSE**—A very handsome evergreen tree. Flowers are white, with pink markings in centre. E.T.
- CAMPORA OFFICINALIS**—A beautiful neat-growing shrub, which does well in hot climates. Admirable as an avenue tree. E.T.
- CYTISUS (Laburnum)**—A charming English flowering tree, which during Spring is covered with beautiful pendant racemes of flowers. Prefers a cool climate. D.T.
- EUCALYPTUS**—These make splendid shade trees, and are of easy culture. Some of the varieties are very popular on account of the magnificent trusses of bright-coloured flowers they produce. E.T.
- FICUS**—Fine evergreen trees, which are invaluable for shelter; there are several varieties, *Australis Variegata* being particularly beautiful. E.T.
- GREVILLEA ROBUSTA**—A great favourite, which grows very quickly. It is very handsome and fragrant when in blossom. Thrives best sheltered among other trees. E.T.
- JACARANDA MIMOSAEFOLIA**—A beautiful little tree with Mimosa-like foliage and magnificent flowers. A well-grown specimen is the admiration of everyone. D.T.
- POINCIANA**—The foliage of this beautiful shrub resembles a bird, and is very graceful and unique. D.S.
- SALIX BABYLONICA (Weeping Willow)**—It thrives well in any light, moist soil; it will grow best near ponds or watercourses. D.T.
- SCHINUS MOLLE**—A beautiful, fast-growing, graceful tree; light-green foliage and bright scarlet berries; leaves have a strong aromatic scent. E.T.
- STERCULEA ACERIFOLIA**—A tree of fine, sturdy, pyramidal growth, with large handsome foliage; produces masses of scarlet flowers, which are thrown out well above the foliage. E.T.

Creepers

For covering unsightly fences, arbours, training up veranda pillars, and other similar purposes, these plants are altogether indispensable. Several of the varieties are admirably adapted for training up poles in the garden or shrubbery, and if a little care is bestowed on them they will produce a most beautiful effect amongst other plants.

Price, 1/6 each, except where otherwise stated.

D signifies Deciduous.

E signifies Evergreen.

- AMPELOPSIS**—A rapidly-growing ornamental climbing plant, well adapted for covering walls of any aspect. In Autumn its rich red and brown leaves give a charming effect. D. Price, 2/- each.
- ANTIGONON LEPTOPUS**—A charming slender creeper, producing an abundance of pink flowers. D.
- ARISTOLOCHIA ELEGANS**—A beautiful bush-house or greenhouse plant. Flower has a slightly distended tube bent upward, a rich purple colour, with white markings. E.
- BIGNONIA**—We have many varieties. Bignonias are of easy culture, fast growers, and beautiful as well as free bloomers. They attach themselves to the wall and fences and gain their own support. E.
- BOUGAINVILLEA**—There are many varieties of Bougainvilleas. They are all splendid climbers or creepers. The following varieties are highly recommended:—*Brazillensis* (dark rose), 1/6; *Grimleyu* (red and orange), 2/6; *Magnifica Laterita* (brick-red, very fine), 3/6; *Refulgens* (purple-mauve), 1/6; *Spectabilis* (magenta), 1/6; *Splendens* (dark magenta), 1/6; *Thomasii* (beautiful rose pink), 3/6; *Sanderiana* (magenta), 1/6; *Badger Beauty* (magenta), 1/6. Gorgeous flowering plants, lasting a long time in flower; they require to be planted so as to have full exposure to the sun.

BEAUMONTIA GRANDIFLORA—A magnificent flowering climber, producing large white trumpet shaped flowers, highly perfumed. E.

CLEMATIS—A deciduous plant of great beauty; requires a sheltered position and good soil; produces large single and double flowers of a variety of colours. A very effective plant. D. Price, 2/6 each.

FICUS (Creeping Fig)—A very fine creeper for covering a wall or fence; leaves are small and clinging, and the shoots, having small roots, make fast to anything against which they are trained. E.

GELSEMIUM SEMPERVIRENS—A beautiful climber, producing flowers of a deep yellow colour with protruding anthers. E.

HEDERA (Ivy)—Ivies thrive well anywhere, and no garden or ground should be without them. The variegated varieties are particularly fine. E.

HOYA CARNOSA—Beautiful climber, with thick fleshy leaves and beautiful clusters of pinkish white flowers, which look as if frosted. E.

IPOMÆA—Flowers are trumpet-shaped and produced in clusters, and are of a beautiful sheeny deep shell pink laid over in small pleats. The foliage is a beautiful bright bottle green, quite in keeping with the stately magnificence of the flowers; ordinary good garden soil will suit it. Price, 3/6 each.

LONICERA (Honeysuckle)—The well-known scented flowering climber; of fine foliage and quick growth. We have several varieties. E.

MANDEVILLEA SUAVEOLENS—A beautiful deciduous creeper, bearing lovely white flowers and having fine foliage. D.

MANETTIA BICOLOUR—Colour, yellow and red. A very pretty climber with tube shaped flowers. E.

PHASEOLUS CARACALLA—A splendid climber, with full foliage, producing clusters of lovely lilac flowers, which are shell shaped. Very curious. E.

QUISQULAIS INDICA—A pretty creeper, producing beautiful sweet-scented flowers of orange and crimson on the same racemes. E.

RHYNCOSPERMUM JASMINOIDES—A beautifully perfumed white-flowered creeper of quick growth and fine foliage; it is evergreen and hardy, except in the coldest districts. Splendid for training our fences, etc. E. Price, 2/- each.

STEPHANOTIS FLORIBUNDA—Wax-like foliage; the flowers which are produced in abundant clusters are pure white and very fragrant. E.

SOLANUM WENDLANDI—A superb summer flowering vine, which blooms continuously. The colour is an attractive lavender blue. A strikingly beautiful plant. We also have a white variety. D.

WISTERIA—Produces in early spring long racemes of beautifully-scented flowers. They are hardy, and when well established grow rapidly. We have two colours—white and lavender. E.

Pines

ARAUCARIA—We have three varieties. Bunya Bunya (grows to a height of 150 feet); Cunninghami (Hoop Pine), which grows to a height of 100 feet; and Excelsior (Norfolk Island Pine), which reaches the same height as Cunninghami. Price, 2/- each.

CUPRESSUS—Most largely grown of all the conifers. Lambertiana, the finest variety, grows 15 to 20 feet in three years. Can be grown as a hedge or breakwind. Price, 2/6 each; 25/- per dozen.

JUNIPERUS—A very compact dwarf tree. We have two varieties—Africanus and Hibernica. Price, 2/- each.

PINUS INSIGNIS—Fine for planting near the sea or in exposed situations. One of the best trees for shelter; grows well in any soil or situation. Price, 2/- each.

THUJA ORIENTALIS—A very hardy tree, which grows to a height of 40 feet; commonly called The Bookleaf Pine. Price, 2/- each.

Fruit Trees

*From the Petersen Nurseries,
Kuraby, Queensland*

OUR NURSERIES at Kuraby are so well situated, and the soil is so well adapted to its purpose that all young trees develop a beautiful fibrous root action. This means that they grow into strong healthy trees, and acclimatised trees of a vigorous nature are the kind which are eagerly sought after. Purchasers can order freely from this list, confident that every tree has passed Government inspection and is the best it is possible to procure.

How to Plant Fruit Trees

Useful Hints

The time to plant Fruit Trees is during May, June, July and August. The soil should be well drained and cultivated deeply and thoroughly. Do not attempt to plant trees in a hole dug in uncultivated land. If the land is well and deeply cultivated, the hole should be sufficiently large to receive the roots without cramping them. The Tree should be planted about the same depth as it was when standing in the Nursery. This can be recognised by the lighter colour of the wood.

When the package of trees arrives, dig a trench in nice loose soil, and put the trees in singly, side by side, and cover the roots well with loose mould. If they have arrived dry, drench the roots thoroughly with water.

When you are ready to plant, have the hole opened and hold the tree in position and work good fine soil among the roots. When the roots are covered tramp them firmly, fill in the rest of the soil, and leave the surface filling light and loose. If the soil is very dry pour in a bucket of water when the roots are first covered, and when it has soaked away finish filling the hole. A mulch of stable manure or bush leaves will greatly benefit the young tree.

If the planting is done early in the season, delay pruning until a month or two later. If planting is done late, do the pruning at once and on no account neglect this operation. It is one of the main principles to secure success and produce good growth the first year.

Citrus Fruits

Mandarins

Price, 2/6 each; 25/- per dozen.

- BEAUTY OF GLEN RETREAT**—A seedling raised near Brisbane, and is pronounced by experts to be far superior to any other kind for hot climate.
- CANTON**—A very good variety of the same description as Scarlet with the difference that the skin is yellow.
- EMPEROR**—Fruit very large; a regular bearer, which is extensively grown for market.
- ELLENDALE BEAUTY**—A Queensland seedling, said to be an improvement on Beauty of Glen; larger and sweeter; good carrier and early.
- EXCELSIOR**—This variety is not generally known; it is an excellent grower and very productive; a variety well worth a trial.
- TEWTRILL'S EARLY SHIPPING**—A cross between an orange and a mandarin, being practically the earliest mandarin known, fruiting very early, and is a very good carrier.
- NAVEL**—A variety of the thorny fruit, solid, almost as large as Emperor; sweet and very fine flavoured; strong growth; foliage larger than the old Thorny.
- PETERSEN'S SPECIAL KING**—An extra large mandarin, similar to Emperor; skin scarlet; fruit very juicy; a very desirable variety.
- PARKER'S SPECIAL**—A Queensland seedling, of larger size and equal in quality to "Beauty of Glen Retreat." The fruit ripens earlier in Queensland.
- SCARLET**—Large handsome fruit, skin almost scarlet; fleshy, juicy.
- THORNEY**—Small and solid; unsurpassed for excellence in flavour and an immense bearer.
- WARWICK'S SEEDLING**—Similar to Beauty of Glen Retreat, but much larger and more prolific.

Tangarine

Price, 2/6 each.

A cross between an Orange and a Mandarin; it is tight skinned and is very similar to Thorny Mandarin; very sweet and juicy; very prolific.

Oranges

Price, 2/6 each; 25/- per dozen.

- BAKER'S SWEET**—A locally raised orange; a prolific bearer and ideal market variety.
- BLOOD MALTESE**—Medium size, flesh blood colour; tree does not grow very high.
- BUCK-EYE NAVEL**—An improved Washington Navel; fruit very large, smooth and very thin skin; a distinct and delicious flavour.
- GOLDEN NUGGET NAVEL**—Fruit very smooth, solid, and even thinner skinned than Washington Navel; fruit exceptionally free from rag, and seedless.
- GROVERLY NAVEL**—A Queensland seedling, recommended by Mr. Benson, the Fruit Expert, as being a constant cropper of highest quality fruit.
- THOMSON'S NAVEL**—Fruit of medium size, smooth and thin skinned; sweet and richly flavoured; the earliest of all oranges to ripen, and an excellent market variety.
- JAFFA**—Fruit large, nearly seedless; oval, thin skinned; tree thornless; a good bearer.

JOPPA—Tree of strong growth and very attractive; fruit of nice size, and of the very best quality.

MEDITERRANEAN SWEET—Remarkable for its early bearing and late ripening; splendid flavour; tree nearly thornless; a fine market variety.

NAVELENCIA—A cross between Valencia and Washington Navel; it retains the good qualities of Washington Navel, together with the hardiness and lateness of Valencia.

ORANGE POOR MAN'S—Extremely large; said to be the best for marmalade.

PINEAPPLE—An orange of recent introduction; a very fine variety; very good for both market and home use.

PARRAMATTA—Fruit large size, round, skin deep yellow; flesh very juicy; very hardy and productive.

SEVILLE—Fruit of large size, rounded and rather flattened; very solid; the best variety for marmalade.

SILETTA—Medium size and thin-skinned; trees of very distinct growth; prolific market variety.

ST. MICHAEL—Fruit of largest size; skin deep yellow, smooth and thin; very juicy, with few seeds; hardy and profitable market variety.

VALENCIA—A good-sized round orange; skin smooth and thin; especially valuable on account of its lateness of ripening. Splendid flavour, also hangs well.

WASHINGTON NAVEL—Fruit in all respects equal or superior to the Bahia Navel; a very good cropper and is considered the very best of all oranges.

SABINA—A splendid all-round orange; medium sized, mid-season.

Citrons

Price, 2/6 each.

AMERICA—Fruit said to be superior to varieties grown before in these States, the rind being sweet and edible when ripe; makes a most delicious conserve.

BENGALL—Fruit very large and of round shape. For preserving is one of the most useful citrons grown.

Grape Fruit

Price, 2/6 each.

MARSH'S SEEDLING—An excellent variety very productive, large and sweet; suitable for dessert as well as preserving.

NATSU MIKAN—The true grape fruit of Japan; about the same size as an orange; fruit rather flat, skin pale yellow. Grows in bunches, and is very prolific.

WARWICK'S SPECIAL—The best variety yet introduced; highly recommended.

Lemons—Grafted

Price, 2/6 each; 25/- per dozen.

EUREKA—A very good variety, in every respect like Lisbon, but trees almost thornless.

GENOA—An Italian variety, entirely without thorns; fruit very large and juicy.

LISBON—The well-known favourite, that has proved to be unexcelled.

SICILY—A good lemon of medium size, with very thick skin.

VILLA FRANCA—A summer bearing tree. A strong vigorous grower, with few thorns; fruit oblong, thin-skinned and firm.

SWEET RIND—A variety well liked for first quality fruit; grows to a good even size. This is a good summer-bearing variety and one of the most profitable to plant.

Limes

Price, 2/6 each.

TAHITI—A strong grower and heavy cropper; fruit nearly the size of a Lisbon lemon; exceedingly thin rind, juicy and nearly seedless. For hot districts it is considered superior to the lemon.

Deciduous Fruits

Almonds

Price, 1/9 each.

BRANDES JORDAN—A well-known almond of strong growth, nuts large and sweet; soft shell.

NE PLUS ULTRA—Extremely prolific, producing its nuts in bunches all over the twigs; nuts large and long; fine flavour.

NEW NONPAREIL—A heavy and regular bearer, with very thin shell; large and sweet.

PAPER SHELL—Very good, and easily broken between the fingers.

WHITE NONPAREIL—The tree is a strong grower of spreading habit, nuts very large with white shell, a far heavier bearer than "Brandes Jordon."

And Many Other Varieties.

Apples

(Grafted on Northern Spy Stocks)

Price, 1/9 each; 18/- per dozen.

BEN DAVIS—An apple of medium size, nice colour and of excellent flavour; suitable for market.

FIVE CROWN—Fruit medium size; skin greenish yellow with brownish cheek; good cooking or dessert; fruit keeps well.

GRANNY SMITH—A large juicy apple of a greenish yellow colour; late and a heavy bearer.

GRAVENSTEIN—A splendid apple good flavour and colour; flesh rich and juicy. Excellent quality.

JOHNATHAN—Splendid striped red colour; abundant bearer, crisp and juicy; highly recommended for extensive plantations, and most valuable for export; late.

LADY CARRINGTON—Beautiful bright red, very prolific, and said to be blight-proof; early.

ROME BEAUTY—Fruit large and handsome; skin yellow shade and striped with bright red; flesh yellowish, tender and juicy.

SCARLET PEARMAN—One of the prettiest apples grown, good dessert; medium.

TWENTY OUNCE—Fruit medium to large; skin smooth greenish yellow, with a beautiful red cheek; flesh white, tender, with a pleasant sub-acid flavour; good cooking or dessert.

And many Other Varieties, particulars of which we will be pleased to give on application.

Apricots

*Suitable only for Cold Climates, not much good for
Brisbane and District*

Price, 1/9 each.

EARLY MOORE PARK—Fruit large; skin yellowish green, brownish red on the sunny side; flesh bright orange. A popular variety for market.

ELRUGE—Flesh firm and juicy; fruit always large; one of the best to grow.

LARGE EARLY—A favourite variety; vigorous grower, which ripens early.

MOORE PARK—A variety of good quality; flesh rich and juicy; excellent.

Cherries

Price, 2/6 each.

KNIGHT'S EARLY BLACK—Large and a heavy bearer; early.

ST. MARGARET—Very large, black and firm; one of the best market varieties.

Custard Apples

Chermoyer or Custard Apple

Seedlings, 2/6. Grafted, 5/- each.

BULLOCK'S HEART—This is very similar to Giant, but is not quite so large; fruit is of excellent flavour.

GIANT—Extra large and of excellent flavour; without doubt the best.

ISLAND SMOOTH—Fruit of medium size and very smooth; a prolific bearer.

Figs

*Figs do well in a moist situation; they are not particular
as regards soil*

Price, 1/9 each.

BLACK GENOA—Dark skin and red flesh, large juicy and rich.

BLACK PROVINCE—A small fig with black skin and very rich flavour; ripens early and bears well.

BROWN ISCHIA—A fig of fine quality, medium size; rich and prolific.

BROWN TURKEY—A quality of fruit hard to beat; very suitable for our climate and can be recommended.

BRUNSWICK—Very large; rich and excellent.

WHITE ADRIATIC—A very rapid grower; tree grows to a large size and is a heavy cropper; absolutely the best fig yet introduced.

And several Other Varieties, particulars of which will be given
on application.

Grape Vines

Price, 9d. each; 7/6 per dozen.

Our stock is strong, well rooted, healthy and free from attack of Odium. The following varieties are strong growers and heavy bearers. They should have a trellis support and plenty of room for growth. Pruning should be just enough to keep them regulated on the trellis:—

COUCH—A splendid table grape, very early; amber colour.

BLACK PRINCE—Bunches long and generally without shoulders, berries above medium, oval; skin thick, deep purple black; flesh tender and very juicy.

DORADILLO—This is one of the best-known varieties, producing large fruit of beautiful amber colour.

GROS COLMAN—Bunches very large, berries large and round, skin dark purple or black; flesh juicy and sweet, with an agreeable flavour.

HAMBURG—A well-known and popular table grape; bunches large to medium, heavily shouldered and well set; berries deep blue-black; flesh rather firm but tender, rich and sugary.

IONA—A well-known variety; very useful as a table grape, amber colour; peculiar in flavour.

ISABELLA—The best known American grape; makes good wine or jelly.

MADRESFIELD COURT—Bunches large, long and tapering, well shouldered; berries large, oval; skin black; flesh tender, juicy and rich.

ROYAL ASCOT—Bunches of medium size; berries purple colour; early.

SWEETWATER—Bunch medium size; berries round greenish white; an old favourite; early.

WILDER—Large bunches large round berries; very productive.

We have other Varieties, including Black Cluster, Madeline Royal, Muscat Beaume and White Mourilyan.

Loquarts

Price, 1/9 each.

Loquarts are a most useful fruit, coming in before any other fruit is ripe.

GIANT—A loquart of very large size, possessing few seeds; has a beautiful flavour.

HERD'S MAMMOTH—The best of all loquarts; very large.

Mulberry

DOWNING'S EVERBEARING—Fruit very large and juicy; exquisite flavour; suitable for local use. Price, 1/9 each.

CAPE—Very strong grower; very suitable for culinary purposes; suitable for local planting. Price, 1/9 each.

BLACK ENGLISH—Perhaps the best variety grown; highly recommended for the colder parts of the State. Not suitable for local use. Price, 2/6 each.

HICK'S EVER-BEARING—Similar to Downing's for remarkably rapid growth and has larger leaf; fruit of large size, very juicy, with a fine acidulous flavour; abundant bearer. Price, 2/- each.

Nectarines

Price, 1/9 each.

EARLY RIVERS—Fruit of large size; rich, crimson skin on side next to sun; light yellow, marked with red, on shaded side; flesh is tender, juicy and very rich; very early.

GOLD MINE—A nectarine of enormous size; a perfect freestone; the pip or stone being very small for so large a fruit.

HUNT'S TAWNEY—Medium, dark purple; flesh yellow and of superior flavour; very prolific and early.

IRRAWARRA—A nectarine of very good size and bright red colour; ripening early; a highly valued market variety.

Peaches

Price, 1/9 each; 18/- per dozen.

BEAUTY OF BOOROODABIN—An ideal peach of the freestone family; which was raised in the State; it is extra early and of superior quality; very suitable for local use.

EARLY CRAWFORD—A splendid yellow and crimson-coloured peach; good for jam, canning, or dessert; medium.

EARLY NEWINGTON—The finest peach for around Brisbane; especially adapted for dessert or preserving; flesh melting, rich and luscious; clingstone.

FOSTER—Fruit of large size; sides slightly flattened; skin a deep orange red, very deep red cheek in the sun; flesh yellow, very rich and pleasant, with a sub-acid flavour; a grand freestone.

HALE'S EARLY—A really first-class peach which always brings top market price; early.

IMP. FLAT CHINA—Extra early, of large size and exquisite flavour; superior to all others.

REMLET—A very prosperous variety; fruit sweet and of medium size. It is very early and is a heavy cropper.

ROYAL GEORGE—A peach highly prized among orchardists; is very suitable for cold districts, and is noted for its exquisite flavour.

BRIGG'S RED MAY—The standard of extra early peaches; fruit medium and roundish; skin whitish green in the shade, bright red in the sun; flesh tender, very rich and juicy; freestone. A very profitable market peach.

KELSEY—This variety is chiefly grown for canning purposes. It is an excellent cropper, and does exceedingly well in cold parts of the State.

We have other Varieties, and will be pleased to send you a List if desired.

Pears—Grafted

Price, 1/9 each; 18/- per dozen.

CLAPP'S FAVOURITE—Very large and richly flavoured; a grand early pear.

KEIFER'S HYBRID—Cross between Williams's Bon Chretien and China; superior flavour; very prolific.

LECONTE—Large fine fruit; vigorous grower and prolific cropper; a very desirable variety.

CHINA OR COOKING—Suitable for preserving or stewing; very firm fruit; heavy cropper.

BON CHRETIAN—Most suitable for cool districts; a good market variety.

GARBER'S HYBRID—A very prolific variety, fruit yellow; said to be the best for our climate.

MADAME COLE—A splendid late dessert variety; suitable for Stanthorpe and district.

Plums

Grafted on Peach Stocks

Price, 1/9 each.

CHICASAW PLUM—This is a species immune to the fruit fly; in that respect it is not subject to disease, and therefore more suitable for our Queensland climate, especially the hotter parts.

HELM—A magnificent plum, producing extraordinarily heavy crop; ripens early.

HOWE—This is an excellent variety, being a heavy cropper and a delicious flavour. We can thoroughly recommend this species for home culture as well as market cultivation.

OCTOBER PURPLE—A very large black-purple, heart-shaped plum, with no splashes of lighter colour; flesh amber yellow, red beneath the skin, very juicy, but firm; sweet and of most delicious flavour.

WILD GOOSE—A well-known variety which produces heavy crops; very juicy and luxurious when ripe.

NEWMAN—A plum similar to Wild Goose, only that the fruit is small.

MILTON—A very choice plum; very nicely flavoured.

ROBINSON—A splendid variety, which is very prolific; flesh yellow; skin reddish.

EXCELSIOR—Perhaps the best of its kind. The fruit is inclined to be round, black in colour and is of delicious flavour. It is very prolific and an extraordinarily strong grower.

BURBANK—Said to be the best of all Japanese plums. The fruit is nearly globular, of a clear cherry red colour, with a thin lilac bloom. The flesh is of a deep yellow colour, with a peculiar and very agreeable flavour.

DICKSON—A cross between Kelsey and Burbank. The stone is very small, and the flesh is of fine texture—firm, sugary and delicious. A very fine plum.

Persimmons or Date Plums

Price, 2/6 each.

DIA DIA MARU—Fruit of the largest size; square or four-sided, rather flattened; skin deep orange; flesh yellow; almost seedless; fine variety and early.

HIYAKUME—An early variety; fruit conical-shaped and large in size; colour pale yellow; flavour unsurpassed.

FLAT SEEDLESS—A fruit of good quality; heavy bearer; one of the best seedless varieties.

NIGHTINGALE—Very superior, fruit cone shaped, heavy cropper, dwarf growing tree; can be recommended.

TANENASHI—A seedless variety of good merit; yellow, oblong and rich in flavour.

YEMON—Large round variety, inclined to be flat; seedless; colour yellow, with rose colour.

Quinces

Price, 1/9 each.

REACE'S MAMMOTH—Large fruit of good quality; very suitable for preserving.

LARGE PORTUGAL—One of the very best varieties; very late.

CHINESE—A well-known variety and hard to beat.

MASTER'S EARLY—An extra early variety of good quality, large fruited.

Small Fruits

RASPBERRIES "FILLBASKET"—A very heavy bearing variety, with large fruit. Considered the best of all raspberries for general purposes. Price, 1/- each.

GOOSEBERRIES—Our stock comprises the best varieties suitable for market purposes and home gardens. Only those which are noted for large fruit and prolific production are sent out. Price, 1/- each.

LOGANBERRIES—This is a splendid fruit and only needs to be known to be extensively grown. It is a cross between the raspberry and blackberry, and has many of the good qualities of both. The fruit is large, dark red in color and deliciously flavoured. The plant is of trailing habit and bears enormous crops of the luscious fruit. Prices, 1/- each.

STRAWBERRIES—Phenomenal, Glenfield Beauty. Price, 5/- per 100; 50 for 3/-. Special quotations for quantity.

Miscellaneous Fruit Trees, Etc.

GUAVAS—Strawberry or Cherry, Gooseberry, Pear, Common or Large Yellow. Price, 2/- each.

CHERRY—Brazilian. This is a very nice shade and ornamental, as well as useful, fruit tree. It grows very rapidly and is always evergreen. Price, 2/- each.

JACK FRUIT—A very ornamental evergreen, producing large fruit, sections only of which are eaten; delicious flavour; highly recommended. Price, 2/- each.

MONSTERA DELICIOSA—A semi-tropical fruit of a semi-climbing habit. It will grow successfully where it is not subject to heavy frosts. Fruit possesses a very nice flavour and is becoming more popular. Plants can be grown in large pots or tubs and used for decorative purposes. Price, 2/6 each.

QUEENSLAND NUT—This is a native of Queensland and of recent years has found its way into America where the nuts are much valued and relished in the same way as Almonds and Brazilian nuts. The flavour and nutritious qualities of this nut will, in due course, create a demand which should eventually place it in the front ranks as a commercial product. Price, 1/6 each.

FLACOURTIA CATAFRACATA—This is a very pretty ornamental and shade tree. The fruit resembles a small plum, and is edible; excellent for making jelly. Price, 2/- each.

POMEGRANATE—This is a very useful flowering as well as an ornamental fruit tree. It is a medicinal fruit which is valuable in many respects. Price, 2/- each.

LITCHI—A Chinese nut of exquisite flavour; well worth growing; stock limited. Price, 3/6 each.

ROSE APPLE (Eugenia Jambosa)—A very beautiful evergreen shrub; producing handsome flowers and perfumed fruit; known as the Lillipilli. Price, 2/6 each.

SPANISH CHESTNUT—The well-known sweet Chestnut, bearing its fruit in burrs; splendid shade tree; bears about five or six years after planting. Price, 2/- each.

PAW PAW—This is a class of fruit that succeeds well in any warm, sheltered spot. It is a plant that is easily grown and useful—not only as a dessert fruit but can also be boiled while green and used as a vegetable. The medical profession recommend it as a cure for indigestion. Price, 1/- each; 10/- per dozen.

WALNUTS—A tree that is an acquisition both from its ornamental appearance when in full leaf and from its delicious and exceedingly popular nuts. Price, 2/6 each.

OLIVES (Fruiting)—In the cooler parts of the State there is nothing so refreshing as the sight of a well-grown olive. The trees give magnificent shade, and the fruit is much sought after. Price, 2/6 each.

MANGOES—We have several varieties of this very popular tree. It is most suitable for both town and country gardens, as well as a shade tree in the open. Our trees are noted for the lusciousness of their large attractive fruit. Strong plants in pots. Price, 2/- to 2/6 each, according to variety.

BANANAS—We have all the best kinds, such as Cavendish, Lady's Finger, Sugar, etc. Growers or private gardeners will get full satisfaction from our stocks. Price, 1/- each; three for 2/6. Special prices on application for quantities.

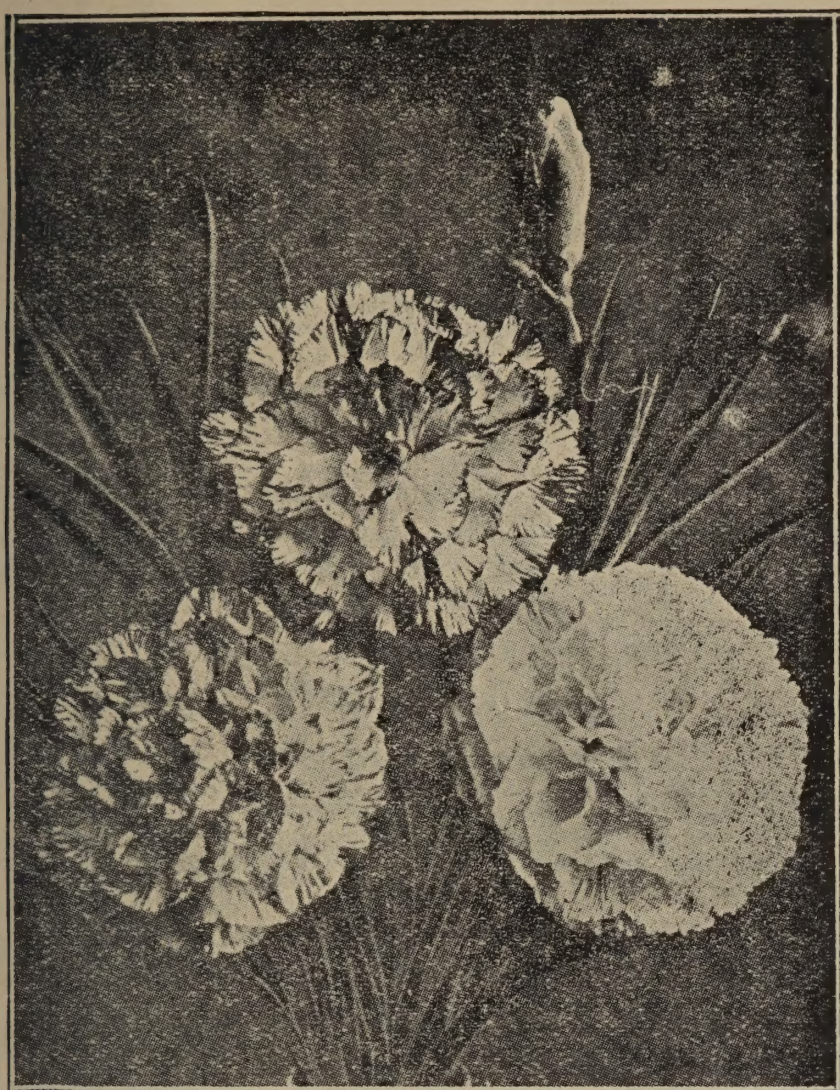

TREE TOMATO (Cyphromanda Batavia)—An excellent fruit, welcomed by most housewives because of its suitability for jam or preserves. Price, 1/6 each.

PINEAPPLE SUCKERS—No matter how small or how large your order we can fill it. We have the following varieties:—The Queen, Ripley Queen and Smooth Leaf. Price, 3/6 per dozen; 12/6 per 100. Special quotations for larger quantities.

PASSION FRUIT—This is a plant that should have a universal appeal. Besides producing luscious fruit it makes an excellent cover for fences and unsightly objects. It does exceedingly well in Queensland, and the plants are very cheap. We have strong, healthy plants at 9d. each.

GRANADILLA (Macrocarpa)—Large fruited passion fruit; also an excellent creeping plant to have around the home. Its beautiful green foliage gives freshness in the surroundings. Price, 1/6 each.

MEXICAN OR BANANA PASSION FRUIT—A very delicious fruit of a long shape, resembling bananas when ripe. We can supply either the plants or seeds. Strong plants, 1/6 each. Seeds, 1/- per packet.

Marsala

Galicia

Mrs. John Wren

Carnations

The flowering wealth, charm of colouring and delightful perfume of Carnations make them one of the most popular and most delightful of all blooms.

They appreciate light and sun, are easy of culture and thrive in any fair soil. To be successful it is necessary, when preparing the bed for planting, to raise it at least six inches above the surface.

To obtain best results plant from beginning of March to end of October.

The following is a selected list of the very best varieties:—

Recent Introductions

Price: 1/6 each; 15/- per dozen; 8/- per half dozen.

ASTORIA—A sport from that popular variety "Galicia." It has a white ground colour, pencilled with bright scarlet; flowers of good form; growth vigorous.

LIALLA—It possesses a very satisfactory habit of growth and large well formed flowers. An uncommon colouring; wine coloured ground, pencilled with crimson maroon.

VERONIA—Blossoms of good size, circular and well built form. Colour, white, lightly edged and dotted, with pale pink. Blossoms have a good calyx and rich perfume.

Mrs. W. S. BUCKLAND—Colour, white ground with rich and heavy markings and margin of deep crimson. It carries large, well-built flowers, with sound calyx and long stems.

THORNABY—Light salmon pink, brightened by numerous fine lines and dots of bright rose. Massive, well-formed blossoms with good calyx and splendid stiff stems; sweetly scented.

MARMORA—Colour, white pencilled with pink; very free flowering with circular blossoms, with cupped petals.

BERYL—Colour, pale pink ground, heavily mottled and flaked with cerise pink; growth strong and healthy; buds of good shape.

- LIBERTY**—Flowers large with a perfect calyx and good form; colour terra cotta red. A strong healthy grower and very free flowering.
- MISS JOAN**—Colour cream ground, edged and pencilled with scarlet also mottled and shaded with pink. A sport from the champion variety Arthur Poulter.
- BUFF BEAUTY**—A buff sport from Beauty, possessing all of Beauty's first-class qualities; a real gem; peculiar dark buff ground with red markings.
- MRS. ALBERTON**—Toowoomba seedling, large pink self; good form and strong calyx. The growth is strong and healthy. A very welcome addition to its colour.
- SIR JOHN FRENCH**—Growth strong and healthy; blooms large and of good form, carried on stiff, erect stems. A splendid red self.
- AUSTRALIA**—A sport from Denet which it resembles in every way except colour, which is flesh-pink, marked with deeper pink.
- NEW ZEALAND**—The growth is strong and erect; blooms are white ground flecked with rose pink. Good form and strong calyx; always in bloom.

General List

Price: 1/3 each; 13/6 dozen.

- ADELINE CARTER**—A sister to Mardon, with growth and size of bloom like it, therefore exceptionally good; colour, dark violet, with dainty markings of purple. Worth its place in any collection.
- APSLEY**—A sister to "Denet," with its exact qualities; flesh-pink, with salmon centre; a most perfect shade of colour and quite unique.
- BRILLIANCE**—Bright scarlet, flaked with chocolate. Growth healthy and strong, with stiff flower stems. Flowers of good form; calyx sound. A very bright and attractive variety.
- CAMELOT**—Flowers large and circular with smooth petals, well built up in the centre, and have a perfect calyx. Growth healthy and vigorous, flower stems long and stiff. Colour, yellow, heavily margined and laced with scarlet.
- CALEY SMITH**—One of the best all-round carnations yet introduced. Colour, pale yellow with even markings of scarlet. Broad, cupped petals of splendid substance. Upright and vigorous and very perpetual.
- DR. RICE**—One of the most wonderful growing carnations in existence, and worth its place anywhere, white ground, with scarlet markings; always in bloom.
- ENCHANTRESS, Rose Pink**—A lovely soft pink sport from that grand variety, Enchantress. It has all the good qualities of its parent, but its most pleasing colour, which does not fade quickly, is a great improvement on the older variety. Should be in every collection.
- ESMONDE**—A self-coloured carnation in a very lovely shade of pink of medium tone. Flowers richly perfumed, above average size, and very full, yet seldom bursts, the calyx being strong. Growth vigorous.
- GLORY**—As large as Lyndall, but a very much better grower and an improved colour, which is a decidedly rich, pleasing red. Glory never throws a bad bloom. No high-class collection is complete without this sort.
- GALICIA**—We recommend this variety as one of the finest carnations. Colour, deep yellow, with rich markings of rose pink, crimson and chocolate. The flowers are of good form, and up to 3½ inches across. Habit of growth, vigorous.
- GEISHA**—A warm shade of heliotrope, with suffusion of salmon-pink at base of petals; of medium size and excellent form; clove scented. A very strong grower, with flower stems of exceptional length.
- GOLBURN**—A lovely, deep yellow self of exceptional merit.
- IDEAL**—A beautiful pure "self" in a new and very pleasing colour midway between purple and crimson; a softer and brighter shade than maroon; changes to a bright crimson under artificial light. Exquisite form of large, sweet-scented flowers, with exceptionally smooth clean-cut petals and strong calyx. Highly recommended.
- IRMA**—A strong growing yellow-ground fancy of very bright and attractive colour the inner half of petals being almost free from markings and the outer half almost covered with a very heavy edge and markings of rich bright crimson. Flowers of graceful form and good outline with heavy petals and strong calyx.

- KIM**—White, ground, maroon markings. Very good.
- KIOTO**—Yellow, slightly suffused with pink, and having flakes of several other colours in the way of a bizarre.
- LIEUT. THOMLINSON**—Ground colour, yellow, thickly pencilled with scarlet. Blooms very large and full.
- MRS. JOHN WREN**—A very large flower; white, evenly striped with bright pink, blooms often measuring over four inches across; sweetly scented.
- MRS. G. H. KERSLAKE**—A splendid fancy. Rich golden yellow, nicely pencilled-scarlet; large bloom of good form; growth strong. One of the best show perpetuals we have.
- MARSALA**—Colour, white, rather lightly marked with reddish mauve and lavender. This is a first-class decorative carnation in a new colour, having extra large, slightly fringed flowers, with sound calyx and a strong free flowering habit of growth.
- MARDEN**—Whitish ground, delightful picoteed purple; a perpetual flowering carnation without a fault. Magnificent growth.
- MISS MYRTLE**—Colour is cream ground, edged and pencilled scarlet; the blooms are large and of perfect form, with a splendid calyx. The growth is all that could be desired. We can thoroughly recommend this variety as one of the best varieties yet offered.
- MAZIE**—A very fine yellow; good grower and very free.
- MARITZA**—A promising variety of Australian origin in a new colour, midway between maroon and purple. Flowers extra large, on long stiff stems. Growth vigorous.
- OREB**—A glowing crimson self carnation. Vigorous habit of growth, long, stiff flower stem, and very strong calyx. Flowers large and full, and perfumed.
- PERILLA**—Colour at first opening light apricot, overlaid with salmon rose, afterwards changing (especially when shaded) to an exquisite blending of rose pink and cream.
- POCLTER'S YELLOW**—This is a sport from Miss M. Curley, and is a counterpart of that variety in every detail except colour, which is a deep golden yellow. Champion New Carnation, C. and S.P. Show, November 12, 1920.
- PINK SEQUENCE**—A Pink Sequence speaks for itself, possessing the same sterling qualities as Sequence; wiry, strong stems.
- PEACE**—Very large lavender coloured flowers, with satin sheen; this promises to be the best of its colour.
- ROBERT WILLIAMS**—This carnation, a sport from Mrs. G. H. Kerslake; bright orange, striped with scarlet, otherwise identical with the parent variety. A splendid carnation.
- ROSLYN**—A wonder for size, often four inches across; pink, with very heavy dark-red markings, serrated edges, sweet perfume; very highly recommended.
- RELIANCE**—It has large massive blooms of the very best show type, with exceptionally good calyx and strong flower stem. Colour cream, heavily edged and laced with deep crimson.
- SALAMANDER**—A lovely carnation of the decorative type, with good size, prettily-shaped flowers borne on stiff stems. The growth is strong and vigorous, and the calyx is perfect. Colour, a pleasing shade of salmon. Admired by all.
- SEQUENCE**—Probably the best scarlet; it has excellent size and shape, and the foliage is indeed a picture; highly recommended.
- SNOW MAIDEN**—Snow white, sweetly scented. One of the best.
- SOMME**—A strong, healthy growing scarlet self; the best of its colour yet raised. The flowers are large, and it has a good calyx, with strong stems.
- TESSIE MCGANN**—Yellow ground, with heavy pencillings of rich crimson. Flowers of the best form, with smooth, clean-cut petals. Growth healthy and perpetual; calyx strong. It is a fine show variety and a great prize winner. It is also one of the best garden carnations and a gem in every respect.
- TORCHLIGHT**—The best scarlet self, smooth edge, ever been offered. The foliage is an ornament itself; stem and calyx perfect.
- WHITE SEQUENCE**—The latest in whites; every flower is good, borne on extra long stems, and the growth is exceptionally robust; extra good large flowers, good calyx and stem, and a vigorous habit of growth.
- WINSOME**—A decorative perpetual, with large, well-formed flowers. Colour, white, pencilled with rose pink. The growth is very strong and bushy, healthy at all times of the year, and produces a large quantity of perfect blooms. One of the most popular varieties of to-day. Winner of eight Champion Prizes.

Gladioli Bulbs

For brilliancy, delicacy and variety of colour and general adaptability combined, there is now nothing in flowering bulbs to compare with the Gladioli. There is an ever-increasing demand for the flower and a tremendous increase in the number of Gladiolus enthusiasts.

The following varieties can be relied upon to give a great amount of pleasure to any garden lover:—

Price, 1/6 each; 15/- dozen. The following collection of 20 varieties for 25/-

ALBERTI—Colour, clear rich salmon, with deep crimson centre. Fine large well-expanded flowers. A good addition to this beautiful colour.

CONSTANT—Colour crimson, with pure white blotch on lower petals. A very beautiful variety.

GOLIATH—Colour, rich deep crimson maroon, with darker shading and mottling. A first-class show variety, both flower and spike being first rate.

KELWAY'S MASTERPIECE—A pure rich shade of crimson which is sometimes lighter at the edges. Spikes fairly long; flowers of good size, type and substance.

LEOLIN—A delicate soft pink, deepening towards the edges, and slightly flaked with a deeper shade. It is a first-class garden variety; one of the finest for exhibition, having splendid long spikes.

MADAME FERDINAND CAYEUX—A very bright and showy variety, with large flowers of a sulphur yellow ground colour, several of the petals being almost covered with an immense blood red blotch.

MAHDI—Colour rich purple maroon. The colour is very pleasing and quite distinct. The flowers are large and of perfect form. A grand show variety and excellent in every way.

MARSHALL—Light crimson scarlet, with blotch of rich dark crimson, bordered with yellow on lower petals. A very desirable variety.

MELVIN—Colour very rich and bright, being a glowing reddish orange, shaded and mottled with a darker colour. Fine, well-opened flowers, and good spikes.

MRS. F. PENDLETON—Colour, light salmon pink with showy blood-red blotches on lower petals. Particularly fine decorative variety. One of the most beautiful gladioli in existence.

NIAGARA—A nankeen or buff yellow colour, with edges of petals tinted pink and throat touched with carmine. An excellent variety with a splendid spike.

PAPILIO ROSE—A lovely shade of pink with a distinct zone of creamy white on lower petals. Very handsome, having perfectly-formed spikes of orange flowers. One of the best.

SAPPHIRE—A beautiful light silvery lavender blue, violet maroon blotch, on yellow, in centre. A dainty variety for decorative work, and one of the best light blues.

SCHWABEN—A magnificent sulphur yellow, with a small brownish carmine spot well back in the throat. Perhaps the best of its colour.

SENTINEL—Large bold flowers and excellent spikes. Colour, warm salmon pink, with darker feathering, and crimson blotch on cream ground.

PRINCE OF WALES—One of the most exquisitely beautiful varieties in existence. Colour, soft salmon, touched with cream on lower petals. Vigorous in growth and one of the earliest to bloom.

SIR NIGEL—Pale yellow, flushed with buff pink on edges of petals, and crimson blotch in throat. Fine large flowers, borne on grand spikes.

SYLVIA—Colour, light rose in centre, deepening towards the edges, where it is flaked with a darker rose shade. Lower petals tinted cream, with dark stripe through centre.

VICTOR—Colour, brilliant scarlet with large conspicuous, pure white blotches on lower petals. It has extra large, well-opened flowers and well-formed spike.

WILBRINK—A light rose pink sport of "Halley." A magnificent all-round variety of fine constitution.

And many other Varieties.

Please write name and address plainly. If we are sold out of any ordered variety we will substitute the nearest in stock. If no instructions are given to the contrary we will regard this as being quite satisfactory.

Quantity	Variety Ordered	Price		
		£	s.	d.

Orders may be continued over leaf

THE Dahlia as a decorative flower is unequalled for either Vase or Cut Flower purposes. Their graceful habit and brilliancy of bloom stamp them as the most useful of all floral blooms. The following collection has been specially selected by us, and contains the very best varieties. You can rely upon procuring a selection, which will give you every satisfaction.

The advantage of planting Dahlias at this time of the year lies in the fact that the blooms will be larger, better coloured, and more easily accessible (on account of the plants not exceeding 5ft. in height) than they would have been if planted earlier.

CACTUS DAHLIAS

- ALABASTER—Superb Pure White.
 AMOS PERRY—Scarlet.
 ARCTURUS—Coral crimson, long twisted florets.
 BORDER KING—Scarlet, with long twisted florets.
 BRITISH LION—Yellow tinged red, distinct gigantic flowers.

PETERSEN'S Complete Service

Six Big Departments

Farm Seed

Our Agricultural Seed Department has earned a big reputation for supplying the purest and best seed procurable. Stocks are always on hand for immediate delivery, and include pasture and fodder grasses, crops, seed potatoes, root crops, etc. Fertilisers are also a special feature of this department.

Floral Work

A permanent and valuable section of our business is the Floral Department, known as the BERMUDA ART FLORISTS. All work is carried out by floral artists of exceptional experience. We can despatch orders for Bridal and Bridesmaids' Bouquets, Posies, Floral Baskets, Wreaths, Masses, Crosses, and all funeral emblems, in either Artificial or Natural Flowers at shortest notice.

Flower and Vegetable Seed

Our up-to-date illustrated Seed Catalogue gives full descriptions and prices of the seed we offer, together with garden and farm notes for each month of the year. Many years of experience has shown us where to get the best possible seed, and this knowledge is reflected in the wonderful results obtained by our customers.

Fruit Trees and Roses

This Catalogue is evidence of the special care and attention given to this section of our business. All plants are strong, healthy and well grown. They are thoroughly acclimatised and will be found true to name. This season, we have 50,000 young Rose Trees, comprising over 300 named varieties of both Dwarf and Climbing Varieties.

Plants, Palms and Ferns

The tropical and sub-tropical climate of Queensland is specially suited for growing magnificent plants of this nature. They are favourites for both indoor and outdoor decoration, and those grown in our Nursery are re-potted several times and gradually made hardy for planting in any out-door situation.

Ornamental Shrubs and Shade Trees

The descriptive list of these plants contained in this Catalogue will give some idea of the wonderful variety growing in our Nursery. Our stocks are chosen for their suitability to the Queensland Climate, but we can supply almost any kind of Tree, Shrub, or Creeper that may be required.
